1-5-2022 Letter from Defendant Cantwell /
to the Court.

Dear Judge Moon,

Thank you for the 30 day extension to
file post trial motions. As I've noted
elsewhere, circumstances beyond my control
continue to impede my participation in
this litigation. Hopefully we can resolve
some of those problems before that 30
day window expires.

Unfortunately, this will almost certainly
not be the case without the Court's intervention.
Knowing this in part motivated me to decline
the pretrial motion to sever. As long
as these well documented abuses are allowed
to persist, time extensions only prolong
the abuse I am being subjected to.

The clearest example of this is in the
CMU's refusal to let me access my legal
papers using the excuse of COVID quarantine.
I pay close attention to the news, and I've
seen some very silly things blamed on this
virus, but this obviously served no medical
purpose, especially when one observes the
physical confines of the CMU quarantine, which
create but a few feet of distance

between quarantined and non-quarantined individuals, through bars spaced 4 inches apart.

But while the quarantine scam is the clearest, it is not particularly unique to me, and is in any case temporary. The more specific and persistent issue is a peculiar prohibition on me possessing these documents without any such pretenses, stating only that these matters of highly publicized public record are "sensitive".

Perhaps somebody should tell that to CNN. While a formal explanation of what is so "sensitive" about these documents has yet to be provided, ~~that~~ there have been hints that the concern is racial tensions in the housing unit. But it is no secret that I participated in the Unite the Right rally. The thing most CNN viewers are still in the dark about is that the Plaintiffs failed to prove their racially motivated violent conspiracy, owing in part to its non-existence. ~~they are thus~~ my African American neighbors are thus left with the ill-informed impression that I am in prison for conspiring to kill black people to whom I am now in debt for \$25,000,000.

Heaven forbid I show them their error, that might create undesirable race relations.

Beyond the prohibition on my possession of the documents, the so-called "Counter Terrorist Unit" or, CTU, insists on "clearing" documents before I am even allowed to know they've been delivered, much less see them. While the secrecy of delivery dates makes it impossible for me to know how long this clearance takes, I have been able to discern that some have been delayed at least 3 weeks. The Plaintiffs' insistence that they repeatedly sent me their exhibits lists, combined with the fact that I did not see any such thing until the third revision was handed to me in Court, seems to suggest some documents are finding their way to the Orwellian memory hole without me or the sender being notified.

If we severed the trials and delayed things 30 years, it would still be impossible to litigate under these circumstances. Of course I'll be released before then, but I have a right to defend myself against abuses of the legal system such as this, even while incarcerated, and that right is clearly being violated.

I come to Court more or less prepared to prevail on the federal

conspiracy claims, in so far as I could show that I conditioned my participation in these events on coordination with law enforcement, and was familiar with the video of my conduct from my criminal matter, in Albemarle County.

The trial preparations that were sabotaged prevented me from fully understanding Counts 3 and 4, and that is where the jury found liability.

Now as I attempt to right this wrong in post trial matters, I meet the same resistance I sought the Court's assistance with in the pretrial phase.

To effectively participate, I need full time possession of a trial transcript, and the Court's decisions on my pretrial motions, at a minimum. Ideally I should have the docket and all its entries subsequent to my October 5th transport, and whatever was withheld from me prior to, and the operative complaint.

Failing these provisions, I wish to preserve for appeal these concerns, as well as the arguments from my motions in limine which were ~~denied~~ denied as untimely dispositive

motions, and whatever concerns I
raised before and during trial which
I am currently unable to reference
for lack of access to documents.

Thank you for your consideration.

Respectfully Submitted,
Christopher Cantwell
